

# 1800kg payload on a car licence!

SBA SERVICE BODIES AUSTRALIA

Made for

**ISUZU TRUCKS**

with the  
**CityPro™ NLR 45 Servicepack X**

## The ultimate compact, versatile city runabout with an impressive 1800kg of payload on a car licence

When a medium sized load of tools and materials is a daily necessity but space is at a premium down narrow city streets, the solution is the CityPro™ NLR 45 Servicepack X.

Park comfortably in loading zones, driveways and tight inner city carparks and easily access all the day's equipment. The cab's narrow 1770mm width and compact 2155mm height make it a champion inner city work vehicle.

Equip your team with a truck that can carry three personnel, handle heavy loads and breeze through inner city manoeuvres. When a 1-tonne ute is not enough but a 3-tonne truck would be overkill, this service body will exceed your expectations.

XL Service Bodies is an **all-Australian business** with proud longevity and a track record of supporting the national economy by employing locals and sourcing all possible parts and materials locally. All our products are designed and manufactured right here in Australia.

### CityPro™ NLR 45 Servicepack X standard features:
